State Highway	
County Road	
Other	
Trail, Footpath, Path, Walkway, etc.	
Non-traffic Barrier	
Third-level Civil Unit	
Block	A1

Where international, state, county, and or MCD/CCD boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

Geographic area names are followed by either their FIPS or census code.

A "*" following an MCD name denotes a false MCD. A "+" following a place name indicates that a false MCD exists with the same name and FIPS code as the place; the false MCD label is not shown.

3-Digit block codes correspond to the place "0" color.

Census tracts are identified by up to four-digit integer number and may have an implied two-digit suffix; for example 23 or 1457.02. The census tract codes consist of six digits with an implied decimal between the fourth and fifth digit corresponding to the basic census tract number, but with leading zeros and trailing zeros for census tracts without a suffix. The tract number examples above would have codes of 002300 and 145702, respectively.

Blocks in space-limited areas, some road names, along with other features and geography names on the map, may not be shown.

Legal boundaries and names are as of January 1, 2020. The boundaries shown on this map are for Census Bureau statistical data collection and tabulation purposes only; depiction and designation for statistical purposes does not connote determination of jurisdiction or ownership or rights of ownership or possession.
